INVENTOR OF LAMINATE

100 YEARS OF FORMICA

For 100 years, the story of the Formica® brand has been one of discovery and innovation. Formica is an iconic brand inextricably linked to the invention of the original High Pressure Laminate (HPL). Formica® brand celebrated 100 years in 2013.

Founded by Herbert A. Faber and Daniel J. O'Conor in the year 1913, Formica® has been a forerunner in laminates production worldwide. Before 1913, all laminates were made from the mineral mica but with roots in chemistry and engineering, Faber and Conor stumbled upon a crucial and more economical alternative and soon adopted this method of producing laminates that were strong, light, and excellent electrical insulators and since they became a very good substitute "for" the mineral "mica", the brand was conceptually named "Formica".

The heritage and brand reputation of the Formica Group of companies has been founded on quality, service and innovative product lines. Formica has developed an unrivaled expertise that ensures products meet the needs of their applications as well as market demands.

FORMICA INDIA

www.formica-india.com

Inventor of Laminate, Formica has achieved a strong and steady presence in the Indian market over the years. Headquartered in Delhi, Formica India boasts of colossal and hi-tech manufacturing plant in Gujarat. Meeting global standards, the state of the art manufacturing facility strive to achieve excellence with world class machinery, efficient work processes, strict safety measures for employees & high quality raw materials. Formica excels in the nationwide distribution system along with a team of dedicated trade partners and sales team.

Working closely with architects, designers and developers, the company is strategically positioned to offer new products and surfacing solutions that complement current design trends. The ongoing product design and development process underlines company's commitment to innovation.

Formica India offers a vast range of laminate choices in terms of patterns, structures and colours. All these ranges are a creation of well thought artistic ideas, matching and practical decor suitabilities.

Formica has created a huge range of laminates for all interiors & without compromising on looks, performance and safety.

The 'Original Inventor' with 100 years of innovation and excellence.

State-of-the-art Laminite manufacturing unit at Kalol, Gujarat.

OUR PRODUCTS

Formica® Slender Series

0.8MM THIN HIGH PRESSURE LAMINATES by FORMICA GROUP

Formica® Slender Range is a series of slim laminates with a thickness of 0.8mm. They are available in wood designs, plain colors and multiple finishes. This is an ideal and budget-friendly option for a gamut of interior applications.

Formica® Classic Series

1MM HIGH PRESSURE LAMINATE by FORMICA GROUP

Formica Classic series laminates are available in Texture and Suede Finish in multicolour shades. Classic Series laminates are ideal for high volume application areas such as offices, malls, commercial buildings, Airports, hospitals etc.

Formica® Classic + Series

THE PREMIUM HIGH PRESSURE LAMINATES by FORMICA GROUP

Formica® iconic range of 1mm laminates is a mix of fashion and functionality that are of great importance to architects and interior decorators. These laminates are manufactured from high-grade raw materials taking the Global environmental standards into consideration.

Formica® Post Forming Range

FOR ROUNDED SURFACES AND EDGES by FORMICA GROUP

This range is a result of relentless innovation and technical prowess. The technology that distinguishes this product is the flexibility to bend along the rounded surfaces and edges of tables, benches etc. to give a seamless look.

Formica® Global Series

HIGH PRESSURE LAMINATES WITH GLOBAL & EXCLUSIVE DESIGNS by FORMICA GROUP

Formica Global Series is a result of dedication in creating laminates which are not only inspired by nature, but also impart the realistic touch and feel associated with delicate natural elements. With the Global Series, Formica introduces next generation of surfacing with all new feel. With the Global Series, Formica is committed to transform the desires & leaving everlasting impressions!

Formica® ColorCore

SOLID COLOUR LAMINATES by FORMICA GROUP

Formica® ColorCore features the high performance characteristics of Formica decorative laminates while eliminating undesired black lines associated with laminate edges. It creates seamless look with practicality and is best suitable for bench-tops, countertops, point of sale units, doors and work surfaces.

PROTECTING THE SURFACE

SCRATCH AND IMPACT PROTECTION

Formica Brand Laminates and surfacing material are resistant to scratch and impacts under normal use conditions.

- Do not chop, slice, pound, or hammer on any laminate surface
- Knives or other sharp utensils may slice or scratch the surface
- Heavy blows from hammer or metal tenderizer may crack or gouge the surface
- Cookware still hot should not be placed directly on laminate surfaces
- Avoid ironing or placing a hot iron on laminate surfaces
- Do not place lighted cigarettes directly on laminate surfaces

Ordinary Cleaning

In most cases, you only need to use a clean, damp, non-abrasive cotton cloth and a mild liquid detergent or household cleaner and rinse with clean water. Do not flood the laminate, since water can penetrate and cause the substrate to swell. Dry the surface with a soft, clean, non-abrasive cotton cloth.

Chemical Damage

Never use cleaners containing acid, alkali or sodium hypochlorite. These cleaners will mar, etch, corrode and permanently discolor the laminate surface. Also make sure that bottles, rags and other materials contaminated with these cleaners never come in contact with laminate surface.
